Dreaming of a new bed? You've come to the right place

A person's bedroom is unique, and it should feel that way. We spend at least a third of our lives in it, whether it's to sleep, rest or relax, so it makes sense that it reflects our own personality. Your bedroom might be small. It could be big. It may be for sharing or going solo. No matter what, on the following pages you'll find lots of exciting ideas to help you make your comfort zone even more comfortable. What will you find? Bedroom furniture. Chests of drawers. Bedside tables. And naturally, that's just the start. After all, what's a bedroom without the bed? Our collection of mattresses, bases and matching bedding is waiting here for you to find. Why not look through this brochure, mix and match your favourite items, and see what will make the perfect room for you. We suggest you sit back and relax, and enjoy what lies ahead. A beautiful bedroom and a great night's sleep.

*Terms and conditions apply. (For full terms and conditions please see IKEA.co.uk or enquire in store). This policy is in addition to your statutory rights.

Mother Nature knows best

We know that what's natural is what's best for your body. That's why our mattresses are made with materials like natural latex, cotton, wool, corn fibre and horsehair – to keep you comfortable, and make sure your sleep environment is at the best temperature for your body.

Which do you prefer?

Everyone's different. So we have three types of mattress to help you find the perfect one. Some people choose springs, some choose foam, and others get a good night's sleep on latex. Which one suits you?

Pocket sprung mattresses

With our pocket sprung mattresses you get support in the right places. Individually wrapped pocket springs work independently and follow your body closely. Some of our mattresses also have separate comfort zones, which give you very precise support and relieve pressure on your shoulders and hips.

Sprung mattresses

Sprung mattresses distribute your weight evenly, so there's no extra pressure on any one part of your body. The open spring construction helps air flow through the mattress, so you won't get too warm while you sleep. You can get the comfort level that's right for you with a mattress pad and a slatted base or a mattress base. Sprung mattresses are also extremely durable.

Foam

Sink into all-over body comfort with one of our foam or memory foam mattresses. Memory foam moulds to your body and gives you good, even support where you need it. This means that your spine straightens out, circulation increases in your skin and muscles, and your shoulders and neck can relax.

HYLLESTAD pocket sprung mattress
A layer of memory foam moulds to the contours of your body, relieves pressure and helps you to relax. Stretch fabric on the top side of the mattress moves with you to maximise comfort. Designed to be used on one side only, with no need to turn. 25-year guarantee. Read about the terms in the guarantee brochure. White.

For warm welcomes and a welcome rest

Think about temperature when making your choice for a duvet, and consider changing it with the seasons. Use our easy to follow guidelines for your perfect pick of duvet and pillow for your new bed.

Natural, down and feathers
Duck down and duck feathers that naturally insulate and breathe. Light, fluffy and lovely. The more down in the filling, the softer, fluffier and more lightweight the product. A higher percentage of down increases the product's price. The more feathers in the filling, the more resilient and weighty the product. A higher percentage of feathers decreases the price.

Synthetic, lyocell and polyester
Easy-care fillings that insulate well. A good choice for allergy sufferers as they can be washed often.

Memory foam
Memory foam responds to your body temperature and moulds to the contours of your body. You get good, even support so you can fully relax and sleep better.

Our quilts are developed in 3 different warmth's

The weight, softness and warmth of a duvet depends on its TOG rating and filling. TOG ratings are based on a duvet's ability to trap warm air. The higher the TOG rating, the warmer the duvet.

Cool 4 TOG
Lightweight - ideal for summer

Warm 7.5 TOG
Warm but still lightweight - ideal for spring and autumn

All seasons duvet
If you want flexibility and versatility, all-season duvets are a great choice. They consist of two separate duvets, a lightweight 4 TOG for summer, a warmer 7.5 TOG for autumn and spring, and connect together for a 11.5 TOG in winter.

Pillow talk

Not everyone sleeps the same way, so we've created pillows designed to accommodate everyone's taste. Choose a pillow based on how firm you would like it to be. We also offer a range of different fillings, so you're sure to find your perfect pillow.

Soft
The same symbol is used for medium firm mattresses, the "soft" choice for mattresses. This pillow has less filling and is suitable if you like to sleep on a softer pillow.

Firm
The same symbol is used for firm mattresses, the "firm" choice for mattresses. This pillow has more filling and is suitable if you like to sleep on a firmer pillow.

Cotton we can all feel comfortable with

We love cotton because it's so soft, breathable and renewable. But we didn't like the fact that conventional farming can harm the growers and the environment. So IKEA made a commitment to help improve the industry.

By the end of 2015, all the cotton that we use will come from more sustainable sources. This means that farmers will:

- use less water thanks to more efficient practices
- use less chemical fertiliser and pesticide, reducing costs and pollution
- increase their profit margins without raising prices
