REFRIGERATORS

Smart cooling. Less waste.

Efficient cooling is a cornerstone of a sustainable kitchen. The better your fridge and freezer work, the less food you will waste. Our refrigerators are ENERGY STAR rated and packed with smart functions that will keep your food fresher, longer. For example: fan cooling which ensures an even and consistent temperature, fast freeze option that quickly freezes large amounts of food or ice makers that really come in handy when you're hosting a party. Choose from top mount, bottom mount, french door or side-by-side models.

5
Year Limited
Warranty
INCLUDED

Whatever your choice, you can be sure your appliance is made to last. Our appliances come with a free 5-year limited warranty (except LAGAN).

ELECTRONIC DISPLAY It's easy to control functions and check or set temperatures with our simple and intuitive electronic display panels.

HUMIDITY CONTROLLED CRISPERS You can preserve the freshness of fruits and vegetables by just adjusting the humidity scale. The integrated air purifying system will also help to reduce food odors.

SPACIOUS STORAGE AND LEDS Our refrigerators offer plenty of storage. Adjustable shelves, multiple crispers and built-in door shelving let you arrange your food just

the way you like. With integrated LEDs that light up every corner, you'll be able to see and find everything you've packed in – even that jar of pickles in the back.

HOW TO CHOOSE YOUR REFRIGERATOR:

1. Consider your food storage needs. How big is your family and how often do you shop?

2. Consider your kitchen planning and the amount of space you have.
3. Are there any particular functions or accessories you need?

GENERAL PRODUCT INFORMATION AND FEATURES

- All refrigerators are free standing, making it easy to place them just where you want in the kitchen. It is important to consider the location of water if you choose a model with an ice maker or water dispenser.
 - All refrigerators have integrated LED light technology.
 - All accessories listed in the product info are included.
 - The right room temperature reduces the electricity usage and provides superior cooling. A refrigerator is intended for use in a location where the temperature ranges from a minimum of 55 F to a maximum of 110 F.
- It is recommended that you do not install the refrigerator near a heat source, such as an oven or radiator, if the appliances are not separated by cabinets or cover panels.
- For complete information and description regarding functions and assembly instructions please visit our web site: IKEA-USA.com

RANGES

Our freestanding ranges offer a convenient way for you to get a quality cooktop and oven combined with many functions. Whether you choose an electric range with ceramic cooktop or a gas range, it will fit perfectly between IKEA kitchen cabinets. You can opt for two ovens in one range—a good choice if you like to cook several dishes at once.

5
Year Limited
Warranty
INCLUDED

Whatever your choice, you can be sure your appliance is made to last. Our appliances come with a free 5-year limited warranty (except LAGAN).

FAN-FORCED AIR CONVECTION Get even heating throughout the oven with fan-forced air convection and cook different dishes at the same time without mixing flavors.

LARGE OVEN Our ranges boast large ovens and multiple levels so you can fit several dishes at once or one BIG bird for those special occasions.

MADE TO FIT & LOTS OF FUNCTIONS All our ranges are made to slide-in perfectly between IKEA cabinets, which makes planning your kitchen that much easier.

Our ranges offer a variety of features, like custom broil and bake settings, adjustable racks and a self-cleaning function.

HOW TO CHOOSE YOUR RANGE:

1. You can get the most out of your cooking time by choosing a single or double oven. Are there any special cooking functions or features you need?

2. Whether it’s an electric range with ceramic cooktop or a gas range you will have a versatile way to cook multiple dishes.
3. You can choose between manual cleaning or innovative self clean technologies.

GENERAL PRODUCT INFORMATION AND FEATURES

- Free-standing, easy to place just where you want it in the kitchen or just slide them in between cabinets.
 - The warming program enables you to keep food warm without becoming overcooked or burnt.
 - All ranges are large capacity: over 4.8 cu.ft. for single ovens and over 6.0 cu.ft for double ovens.
 - Gas ranges have powerful burners with over 15,000 BTU’s, generating high heat needed for rapid boiling, searing and frying. (BTU = British Thermal Unit, a way of measuring the output power of the gas burners.)
- Ceramic ranges have infinite heat setting controls to suit your needs and a smooth surface which makes it easy to clean.
 - All ranges have child locks for safety.
 - All ranges require a qualified installer.
- For complete function description and assembly instructions please visit [IKEA-USA.com](#).

INNOVATIVE AND TIME SAVING SELF CLEANING PROGRAMS FOR EASIER EVERYDAY COOKING.

SELF-CLEANING The self-cleaning function makes it easier for you to clean the oven, as grease and food residue are burned to ashes that can be easily brushed off.

WATER CLEAN This self clean function is innovative and energy efficient using water and low heat to release the grease and food residue. When the cycle is complete just easily wipe off the leftovers.

OVENS

Our ovens are built-in, fitting perfectly in both base or high kitchen cabinets. Place them exactly where you want them in your kitchen, making the most of your space and creating the perfect workflow. Our ovens come with a wide range of smart functions, ready to help with anything from a simple snack to a gourmet meal. If you're looking for advanced cooking or convenient self-cleaning programs we've got you covered.

Safety

Of course, quality and features are top of mind when we design our ovens, but we think about safety too. They have quadruple-glass doors so you can touch them at any temperature setting as well as child lock to protect the little ones.

5
Year Limited
Warranty
INCLUDED

Whatever your choice, you can be sure your appliance is made to last. Our appliances come with a free 5-year limited warranty (except LAGAN).

TRUE CONVENTION distributes preheated air more efficiently, so the oven is filled with even heat, cutting down on cooking time and sealing in flavors and juices.

LARGE OVENS & MULTIPLE RACKS The insides of our ovens have generous dimensions and several racks so you have enough space for lots of different dishes at once or several trays of the same delicious treat.

SELF-CLEANING This function makes your oven easy to clean—grease and food residue are burned to ashes that you can simply wipe away.

CUSTOM BROIL AND GRILL You can adjust the temperature of the broil and grill function, customizing it according to your cooking needs.

HOW TO CHOOSE YOUR OVEN

1. Consider your cooking needs. How often and how much do you cook?
2. Choose between manual cleaning or innovative self-cleaning technology.
3. Are there any special cooking functions or features you need, like cooking different dishes at the same time?

GENERAL PRODUCT INFORMATION AND FEATURES

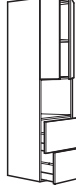

- All ovens are built-in and have big capacity 5.0 cu.ft. for single oven, 10.0 cu.ft for double oven.
 - The warming program enables you to keep food warm without becoming overcooked or burnt.
 - Convenient electronic timer with delayed start function which allows you to begin the cooking process when it suites you best.
 - The full electronic display clearly shows the status of settings, temperature or important functions.
 - Quadruple-glass doors with child-safety lock improves kitchen safety.
 - All ovens requires a qualified installer.

MICROWAVE OVENS

When the hustle of everyday life leaves you with the need for speed, a microwave oven is a choice in every way. Microwave ovens are quick, energy efficient and perfect for reheating and defrosting.

Our microwave ovens have extractor fans built-in the bottom, so you can place them directly above your cooktop.

5
Year Limited
Warranty
INCLUDED

Whatever your choice, you can be sure your appliance is made to last. Our appliances come with a free 5-year limited warranty (except LAGAN).

SETUP TO WORK SMART A combination of microwave oven and extractor fan is a smart use of space and a way to create an ergonomic, organized and smooth work flow that's just right for you.

EASY TO CLEAN with removable grease filters that are dishwasher safe.

THE SMOOTH SURFACE of microwave ovens makes it easy to clean.

HOW TO CHOOSE YOUR MICROWAVE OVEN

1. Consider your kitchen planning and cooking needs.
2. Which functions and features suit the way you use your microwave?
3. A combination of microwave oven and extractor fan is a smart use of space and money.

GENERAL PRODUCT INFORMATION AND FEATURES

- All microwave ovens are equipped with presets for cooking time and cooking power.
 - Cook, reheat or defrost without affecting the nutrients or flavors of foods by just selecting the settings for specific food types.
 - Install between wall cabinets (microwave ovens with extractor fan) above the cooking area, or integrated in high cabinets (built-in microwave oven).
 - Microwave ovens with an extractor fan can be installed in 2 ways: in ventilation mode (connected/ducted to the outside) or in re-circulation mode with charcoal filters, purifying the air and sending it back into the kitchen.
 - For best performance, the extractor hood should be switched on a few minutes before cooking and left
- running for at least 5 minutes after cooking.
 - All microwave ovens require a qualified installer.

Faster. Safer. More precise.

Induction cooktops are fast, precise and extremely energy efficient using technology that transfers heat directly into any magnetic cookware.

The power booster delivers additional power to a single cooking zone. This kind of rapid intense heat is ideal for boiling water, stir-frying food or searing meat.

COOKTOPS

We have a variety of cooktops to choose from, so you can find the one that suits the way you cook. Gas, ceramic and induction cooktops all have their own unique features and benefits. Whether you are an ambitious home chef or more of a quick and low maintenance cook, we have something that's right for you. Check out the descriptions on the facing page for benefits of each type of cooktop we offer.

5
Year Limited
Warranty
INCLUDED

Whatever your choice, you can be sure your appliance is made to last. Our appliances come with a free 5-year limited warranty (except LAGAN).

CERAMIC Practical and easy to clean, most of our ceramic cooktops have variable cooking zones that provide even and effective heating, adapted to the shape and size of your cookware. With just a touch, you can select features and regulate the heat exactly the way you want.

GAS The blue flames of gas cooktops are more than a professional looking feature, they give you quick, responsive heat control, perfect for fast, fresh cooking.

INDUCTION Fast, energy efficient and precise, induction cooktops only heat up the magnetic cookware on top, making them a very safe option too.

HOW TO CHOOSE YOUR COOKTOP

1. Consider your cooking needs. How often and how much do you cook? Do you prefer basic or advanced cooking?

2. Consider the style of your kitchen — traditional or modern.

3. Are there any special functions you need?

GENERAL PRODUCT INFORMATION AND FEATURES

- Gas cooktops have powerful burners with over 12,000 BTUs, generating high heat needed for rapid boiling, searing and frying. (BTUs = British Thermal Unit, is a way of measuring the output power of the gas burners.)
 - Ceramic cooktops have infinite heat setting controls and a smooth surface, which makes it easy to clean.
 - For induction, the power booster feature delivers additional power to a single cooking zone generating rapid intense heat.

- An Induction cooktop requires cookware with a magnetic base. They cannot be installed above an oven.
 - Installation to be made by a qualified installer.

EXTRACTOR HOODS

Not only does an extractor hood keep the kitchen free of steam, grease and cooking odors, it's also an important design element.

Whether you're looking for a ceiling-mounted extractor hood for over a kitchen island or a wall-mounted model, we've got you covered. Our hoods come in a range of extraction capacities too, so you can be sure to get one with the right amount of muscle to keep your kitchen fresh.

5
Year Limited
Warranty
INCLUDED

Whatever your choice, you can be sure your appliance is made to last. Our appliances come with a free 5-year limited warranty (except LAGAN).

WALL-MOUNTED These hoods are design features. We offer a variety of shapes and finishes. You can find the right one to boost your kitchen's style.

BUILT-IN Hide your extractor hood with a built-in model. It's completely integrated with your kitchen cabinets so you get a streamline and uniform look.

STYLE AND SIZE An extractor hood can make a big style statement, whether you pick one that's similar to your other appliances or go for something different

to create a casual, eclectic look. The hood should cover your cooking area, or even a little more to ensure ideal performance.

HOW TO CHOOSE YOUR HOOD

1. Choose a style and color that match your other appliances and the rest of your kitchen.

2. Choose between built-in, ceiling-mounted or wall-mounted.
3. Consider the functions and performance you want. Will your hood use a filter and recirculate air or will it be ducted to your ventilation system? What extraction rate do you need and what noise level is acceptable?

GENERAL INFORMATION FOR ALL HOODS

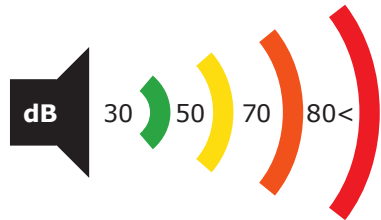

- For best performance, the extractor hood should be larger than the cooktop, never smaller! It needs to be switched on a few minutes before starting to cook and left running for at least 5 minutes after cooking.
 - Keep in mind the distance between the cooktop and the hood. For most hoods the rule is 19" for an electric cooktop and 26" for a gas cooktop. For more information check the installation manual.
 - Use a low speed setting for boiling small pans, a medium speed setting when boiling several pans or light frying and a high speed setting for stir-frying in a

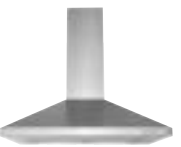

- wok and deep frying.
 - Most of our hoods can be installed in two ways, either ducted to the outside, or in recirculation mode using a charcoal filter.
 - The accessories for a hood installation are **sold separately**.
 - Installation to be made by a qualified installer.
- For complete information and description regarding functions and assembly instructions please visit our web site: [IKEA-USA.com](#)

SOUND LEVELS

Sound levels for appliances are measured in decibels (dB) and sones. Our appliances have been tested to determine and measure this.
For extractor hoods the operating speed or installation type can influence sound levels.

Decibel levels are listed in the product information. Compare decibel levels and choose the hood that’s suitable for your needs and comfort.

		Extraction rate	Noise level	Lighting, Watts
Semi-integrated Extractor Hoods				
LUFTIG white		190 CFM	4.5 sones/ 62.1 dB	1×75W light bulb
LUFTIG stainless steel		225 CFM	6.5 sones/ 67.8 dB	1×75W light bulb
Built-In Extractor Hoods

Wall-Mounted Extractor Hoods

DISHWASHERS

A dishwasher is more water and energy efficient than washing dishes by hand. With sterilizing functions, it's more hygienic too. We offer both fully integrated and semi-integrated models. Whichever you choose, you'll get a tall interior space that will fit oversized dishes and large loads. Most of our dishwashers are ENERGY STAR rated and come with a limited warranty.

5

**Year Limited
Warranty
INCLUDED**

Whatever your choice, you can be sure your appliance is made to last. Our appliances come with a free 5-year limited warranty (except LAGAN).

WATER EFFICIENT Lots of dishes will be sparkling clean with just a small amount of water.

INTEGRATED Our fully integrated dishwashers can hide behind a front that matches the rest of your kitchen doors, giving you a completely uniform look.

SEMI-INTEGRATED Installation is easy with a semi-integrated dishwasher. They're sized to slide right under your countertop.

SMART SORTING Our cutlery baskets let you stand utensils up, ensuring they're thoroughly cleaned. Once the wash is done, they're easier to sort and put away too.

HOW TO CHOOSE YOUR DISHWASHER:

1. Consider your household needs and choose the dishwasher with the right capacity.
2. You can choose between a fully integrated model or models that just slide under your countertop.

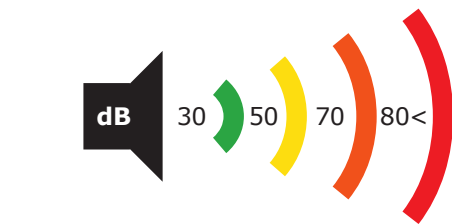

GENERAL PRODUCT INFORMATION AND FEATURES

- All dishwashers have tall interiors that hold a larger amount of dishes and allow you to make maximum use of dish space.
 - The cutlery baskets are removable.
 - The sanitation option uses a high temperature rinse to clean your dishes and glassware.
 - The delayed start option allows you to wash when it suits you.
- A fully integrated dishwasher can be aligned with the rest of the kitchen drawer fronts, use VÅGLIG connection rail for installation.
 - Installation to be made by a qualified installer.

WARRANTY – TERMS AND CONDITIONS

APPLIANCES

What is covered under this limited warranty?
How long is the IKEA limited warranty valid?
This limited warranty is valid for five (5) years from the date of purchase, when this major appliance is operated and maintained according to instructions for use attached to or furnished with the product.

This limited warranty is valid only in the United States and applies only when the major appliance is used in the country in which it was purchased. Outside the 50 United States, this limited warranty does not apply.

Proof of original purchase date is required to obtain service under this limited warranty.

What does this limited warranty cover?
The limited warranty will pay for factory specified parts and repair labor to correct defects in materials or workmanship that existed when the major appliance was purchased. The exceptions are specified under the headline “What is not covered under this limited warranty?”.

Which major appliances are not covered by the IKEA five (5) year limited warranty?
For major appliances named “LAGAN”, a limited warranty is valid for one year from the date of purchase.

What will be done to correct the problem?
The designated service company will examine the product and decide, at its sole discretion, if it is covered under this limited warranty. If considered covered, the designated service company will then repair the defect. Your sole and exclusive remedy under this limited warranty shall be product repair as provided herein.

Within the limited warranty period, the costs to remedy the fault e.g. repairs, parts, labor and travel will be covered, provided that the appliance is accessible for repair without special expenditure.

Who will execute the service?
This limited warranty is provided by Whirlpool Corporation (hereafter “Whirlpool”). Service must be provided by a Whirlpool designated service company.

What is not covered under this limited warranty?

- Service calls to correct the installation of your major appliance, to instruct you on how to use your major appliance, to replace or repair house fuses, or to correct house wiring or plumbing.
- Service calls to repair or replace appliance light bulbs, air filters or water filters. Consumable parts are excluded from warranty coverage.
- Replacement parts or repair labor if this major appliance is used for other than normal, single-family household use or when it is used in a manner that is contrary to published user or operator instructions and/or installation instructions.
- Damage resulting from accident, alteration, misuse, abuse, fire, flood, acts of God, improper installation, installation not in accordance with electrical or plumbing codes, or use of consumables or cleaning products not approved for use.
- Cosmetic damage, including scratches, dents, chips or other damage to the finish of your major appliance, unless such damage results from defects in materials or workmanship and is reported within 30 days from the date of purchase.
- Any food loss due to refrigerator or freezer product failures.
- Pick up and delivery. This major appliance is intended to be repaired in your home.
- Repairs to parts or systems resulting from unauthorized modifications made to the appliance.
- Expenses for travel and transportation for product service if your major appliance is located in a remote area where service by an authorized servicer is not available.
- The removal and reinstallation of your major appliance if it is installed in an inaccessible location or is not installed in accordance with published installation instructions.

- Replacement parts or repair labor on major appliances with original model/ serial numbers that have been removed, altered or cannot be easily determined. This warranty is void if the factory applied serial number has been altered or removed from your major appliance.
- The cost of repair or replacement under these excluded circumstances shall be borne by the customer.

Disclaimer of Implied Warranties
IMPLIED WARRANTIES, INCLUDING ANY IMPLIED WARRANTY OF MERCHANTABILITY OR IMPLIED WARRANTY OF FITNESS FOR A PARTICULAR PURPOSE, ARE LIMITED TO FIVE YEARS (ONE YEAR FOR MAJOR APPLIANCES NAMED “LAGAN”) OR THE SHORTEST PERIOD ALLOWED BY LAW. Some states and provinces do not allow limitations on the duration of implied warranties of merchantability or fitness, so this limitation may not apply to you. This warranty gives you specific legal rights, and you also may have other rights that vary from state to state or province to province.

Limitation of Remedies; Exclusion of Incidental and Consequential Damages
YOUR SOLE AND EXCLUSIVE REMEDY UNDER THIS LIMITED WARRANTY SHALL BE PRODUCT REPAIR AS PROVIDED HEREIN. WHIRLPOOL SHALL NOT BE LIABLE FOR INCIDENTAL OR CONSEQUENTIAL DAMAGES. Some states and provinces do not allow the exclusion or limitation of incidental or consequential damages, so these limitations and exclusions may not apply to you. This warranty gives you specific legal rights, and you also may have other rights that vary from state to state or province to province.

Care instructions
All appliances are designed for domestic/home use only.

To ensure maximum performance, read and follow the Instructions for Use that accompany your new appliance. It is also important to follow the health and safety instructions, which, for instance, recommend that there are always 2 people to carry/ move heavy appliances.

Be sure there is an outlet near the appliance. Never use an extension cord.

We strongly recommend that you ensure correct and safe installation by hiring a professional plumber and/or electrician whenever relevant. If problems should arise due to incorrect installation, the limited warranty will not apply. Respect the environment by disposing of the packaging properly. Keep packaging such as large plastic bags out of the reach of children. Always keep your appliances clean. Use only those cleaning products recommended in the instructions for use. For example, never use abrasive scouring pads as they may scratch or damage surfaces.

Be sure to use products intended for use with your appliances. For example, be sure to use microwave-safe porcelain, oven safe dishes, freezer-safe food savers and pots and pans made of a suitable material.

Read more in the Instructions for Use that comes with the products.

- Ovens**
- Must be installed by a professional.
 - Before you use the oven for the first time, follow instructions to eliminate any odor and remove stickers, etc.
 - For ordinary cleaning, use water and a mild detergent. Avoid abrasive cleaning products.
 - Do not hang tea-towels on the oven handle while the oven is in use.

- Cooktops**
- Must be installed by a professional.
 - Use only non-abrasive cleaning products. Avoid scouring powder, steel wool, hard or sharp objects that can scratch the surface.
 - To improve child safety, consider complementing with a cooktop guard.
 - For both gas and electric cooktops: save energy by using pots and pans with a base diameter equal to, or slightly larger than, the diameter of the burner.
 - If you are using LPG bottled gas, you must replace the gas injectors with the available LPG gas kit.
 - For gas cooktops: fit the rubber seal properly. It prevents water leakage, which

- may damage the cooktop.
- For induction cooktops: use only pots and pans with a magnetic base for induction cooking.
- For glass ceramic cooktops: use only pots and pans with a flat base.
- For glass ceramic cooktops: always remove spills because they may cause opaque or matt stains on the surface.

- Hoods**
- Install the hood in the way that suits your kitchen; either recirculating or extracting.
 - Using extension tubes and flues reduces the hood’s performance. The maximum length of a duct should not exceed 10 ft.
 - Always observe the minimum safety distance between cooktop and hood. This distance varies depending on country and cooktop type. Refer to installation instructions of the product for full details.
 - Change carbon filters every 3 months and clean metal grease filters regularly to optimize performance.
 - Make sure to clean oil/grease off of the hood regularly.

- Microwave ovens**
- Do not put metal of any kind inside the oven.
 - Use only those materials approved for microwave cooking.
 - Be sure the ventilation vents are unobstructed.
 - Do not remove or block the turntable when cooking in a microwave.

- Dishwashers**
- Hire a professional to install the water and electricity.
 - Set the correct level of water hardness (pH-value) in the rinse aid dispenser.
 - Use detergent specifically developed for automatic dishwashers.
 - For best results, make sure there is enough rinse aid and detergent and that they are placed in the correct dispensers.
 - Empty and clean the filter regularly, if applicable.
 - Always load sharp items, such as knives, pointing downwards in the removable cutlery basket for safety reasons. Don’t load these in the dish compartment to avoid damaging the dishwasher.

- Fridge/freezers**
- Be sure to place the fridge/freezer where there is sufficient air ventilation around it. A freestanding unit must never be placed inside kitchen cabinets because this obstructs air ventilation and may cause the product not to work properly and damage it.
 - Keep the condensation drainage hole at the back of the fridge clean and free of blockages to enable the frost-free system to work.
 - Make sure food has cooled down first before placing it in the fridge or freezer. Hot food causes excessive condensation and ice to build up in the freezer, resulting in reduced performance.
 - Avoid using sharp tools to defrost your freezer – they can damage the internal plastic lining.

How to reach us if you need our service
If you need service, please read the Installation Instructions and/or the “Troubleshooting” section of the Instructions for Use booklet before contacting us. Please have the IKEA article number for your appliance to hand before calling us. You’ll find this 8 digit number on your receipt as well as on the rating plate of the appliance. If you need additional help, do not hesitate to contact us in the U.S.A. at 1-866-664-2449.

If outside the 50 United States, contact your authorized IKEA retailer to determine if another warranty applies.

Energy efficient and smart features.

There is no need to waste more energy and space inside your refrigerator with water gallons or ice containers.

Thanks to the door integrated water dispenser and ice maker you get easy access to cold filtered water, ice or crushed ice any time you want.

Save water and energy.

Using a dishwasher is more water and energy efficient than washing dishes by hand. And it's more hygienic too! Plenty of dishes gets sparkling clean with only 1.95 gallons of water.
