

BUYING GUIDE

ARHOLMA

Outdoor Living Furniture Series

Customize your outdoor sofa

ARHOLMA outdoor low seating series consists of different sections that you can use individually or combine to create seating that perfectly suits your needs. Want a cozy corner to curl up in, a sofa for two, or maybe a long sofa to stretch out on and read? It's easy to disconnect the sections and reconfigure them in a new way, or skip a sofa entirely and create seating with several armchairs. The choice is yours!

Comfortable and easy to care for

ARHOLMA outdoor series is made of handwoven plastic rattan that has the same expression and feeling as natural rattan. It's weather resistant and easy to care for. A mild detergent and water are all you need to keep your furniture looking fresh and new. Add ARHOLMA seat pads and back cushions for greater comfort. The pad and cushion covers are easy to keep clean as the fabric can be removed and machine-washed.

A high standard of accuracy has been sought in the preparation of this brochure. We apologize for, but will not be bound by or responsible for, errors and omissions in this brochure.

All the products (shown here) may not be available at the store. Some prices may vary by store. Please contact the staff or visit IKEA-USA.com for more information. For more detailed product information, see the price tag and the Internet. All units require assembly.

PROTECTING AND CARING FOR ARHOLMA

The best way to extend the life of your outdoor furniture is by cleaning it regularly and not leaving it outdoors unprotected more than necessary.

Cleaning

Wipe clean with a mild soapy solution. ARHOLMA pad and cushion covers are removable and machine washable.

Maintenance

Requires no maintenance.

Storing

If possible, store ARHOLMA products in a cool, dry place indoors. When stored outside, tilt the furniture and

preferably use waterproof covers. Make sure air can circulate to avoid condensation. In freezing temperatures, plastic can weaken and is not recommended for use.

Repairing

The steel frame is protected from rust with a powder coating of plastic paint. If for some reason the coating comes off, the steel is not protected and rust may occur. To repair the damage, wipe clean and repaint to restore protection.
