Comfortable seating for the whole family

TIMSFORS is a soft and comfortable seating series for the whole family. You can choose between several sofa models and combine them with an armchair that swivels and reclines. The soft, hardwearing and easy care leather makes TIMSFORS perfect for families with children.

Extra good comfort and support

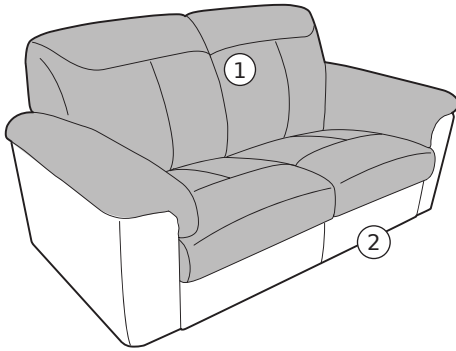

If you're longing to sink down into a soft, plump sofa, then TIMSFORS seating series is the right place to look. The high backrest offers comfortable support for your back and neck, and the angled armrests are good when laying down or even to sit on, because it has extra padding on the side. If you want even more comfort, choose the footstool or armchair with swivel and recline functions.

A high standard of accuracy has been sought in the preparation of this brochure. We apologize for, but will not be bound by or responsible for, errors and omissions in this brochure.

All the products (shown here) may not be available at the store. Some prices may vary by store. Please contact the staff or visit IKEA-USA.com for more information. For more detailed product information, see the price tag and the Internet. All units require assembly.

GOOD TO KNOW

TIMSFORS in leather and coated fabric

TIMSFORS leather sofa is a combination of our 1,2 mm thick grain leather called MJUK, which is a soft yet durable dyed-through leather, and KIMSTAD coated fabric. Coated fabric has the look and feel of leather at a lower cost. This is why IKEA often uses a combination of both, with leather on direct contacts areas such as seating surfaces and armrests (1), and coated fabric on other outer surfaces (2).

Grain leather

The natural variations in the hide are visible, as the leather is treated with only a light color coating for protection. The leather will acquire a beautiful patina over time. It's also easy to care for - just vacuum regularly with the soft brush attachment on your vacuum cleaner and treat with ABSORB leather care set to keep the leather soft, supple and fresh looking.

Coated fabric

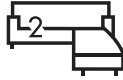

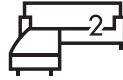

Coated fabric has a polyurethane layer with a thin protective coating that can be embossed to look like leather. It's a strong and durable material and very easy to care for - just vacuum the surface using the soft brush attachment on your vacuum cleaner and wipe with a damp cloth.

Durability

All our different leather and coated fabrics have been treated to protect them and make them easy for you to care for. All have also been tested and approved for tear strength, flexibility and color fastness, so you can be sure you will enjoy your new sofa or armchair for many years to come.

For more information, please read the Leather and Other Sofa Materials brochure.
